**Attention: Mr Kim Wood**

Principal Commissioner  
Queensland Productivity Commission  
PO Box 12112  
George St, QLD 4003

**Submitted Electronically**

Dear Mr Wood

**Draft report: Electricity Pricing in Queensland**

QEnergy is grateful for the opportunity to respond to the Queensland Productivity Commission's (**QPC**) Draft Report on electricity pricing in Queensland. QEnergy wishes to endorse the positions put by the Australian Energy Council (**AEC**) in its submission with the exception to the comments on Draft Recommendations 7 & 8.

As we stated in our submission on QPC's Issues Paper, we consider that the late rebidding practices engaged in over the last year in Queensland have meant that wholesale prices were higher than they otherwise would have been had the market been functioning properly.

QEnergy therefore supports the draft recommendations by the QPC that the Queensland Government should require CS Energy and Stanwell to develop and adhere to a common voluntary Code of Conduct and report to the Government, on an annual basis, all late rebids submitted to the Australian Energy Market Operator.

Yours sincerely

Kate Farrar  
Managing Director
